 CONSERVATION  
 NEWS**

A meeting of the Hancock County Coordinating Council was held Monday, Dec. 7, 1959 in the Agricultural Center, Bay St. Louis, Miss., with the following persons present:

Hugh C. Sanford, WUC, SCS, Chairman.  
 Howard F. Simmons, County Agent, Extension Service.  
 C. M. Dunnam, Aide, SCS.  
 D. J. Martin, Voc. Ag. Teacher.  
 Mrs. M. T. Parker, Clerk.

The meeting was called to order by the chairman at 2:30 p. m.

Mr. Sanford, SCS representative stated that Mr. Parker who had agreed to discuss the work of his agency at this meeting could not be present for the reason that he had to be out of town.

The group discussed and reviewed regulations regarding the Conservation Needs Report and made plans for the conservation needs committee to meet with State Office representatives on Tuesday, December 8, 1959 at 8:30 a. m. in order to verify acreage on the county report in detail.

The meeting adjourned at 3:00 p. m.

A meeting of the Soil and water Conservation Needs Committee met at the Agricultural Center Building on Tuesday, December 8, 1959 at 8:30 a. m. with the following persons present:

Hugh Sanford, WUC, SCS, Chairman; D. L. Trigg, SO Representative; Walter Seagle, SO Representative; Howard F. Simmons, County Agent, Extension Service; Max Stone, Supervisor, FFA; Marion T. Parker, FS, State FS Representative; C. M. Dunnam, Aide, SCS; and Mary E. Favre, Office Manager, ACS.

After Mr. Seagle and Mr. Trigg were introduced to the group, reports on cropland and farm woodland acreage were reviewed and discussed in detail. The county group still agreed that in their estimation acreages in relation to cropland and woodland is adequate for the county.

After a lengthy discussion in regard to the acreages Mr. Trigg, State Office representative pointed out to the group that it would be necessary to file a report explaining why the adopted estimate for cropland is higher than either the census data or the SCS 2% soil survey and (2) explain why the adopted estimate is less than either the forest survey or SCS 2% sample for farm and woodland.

The county group agreed to meet in the near future and submit their report by December 31.

**COUNTY AGENTS NOTES**  
By HOWARD SIMMONS  
County Agent

Management problems are number one with the sheep producers in Hancock County at this season.

Eyes are spring heavy, lambing or have just lambled. They need special care. Unless your spring ewes are on good green grazing, give them around a pound daily of protein meal and some good legume hay.

Check your springing ewes often to make sure that the new born lamb gets milk immediately after being born. This is especially important in cold wet weather.

During lambing season check your ewe flock around 9:00 p. m. and again around 5:30 or 6:00 the next morning. Very few lambs will be born after the ewes settle down at night and up until they start moving about in the morning.

Dock and castrate lambs at 10 days to two weeks of age. Lambs docked and castrated will bring more money than those that are not. Lambs that have not been docked and castrated often bring as much as \$5 or \$6 per hundred less money.

**Last Escapees From Parchman Captured**

Parchman, Miss.—The last two of four convicts who escaped from the Mississippi state penitentiary 10 days ago were captured in Columbus, Ohio.

Prison Supt. Bill Harpole said the convicts, David Allen Hale, 35, and Jackie Dale Ohiam, 21, were picked up in Columbus in connection with several burglaries there. They had a revolver taken at the time of their escape. The two men escaped Nov. 15, with two other convicts, Edward Corley, 27, and Marie Jeanne, 25, five times married and in prison for bigamy.

Corley and the Jeanne were caught Nov. 24 as officers out short their stolen honorarium by nabbing them in a night club. They had been in a nearby motel.

Corley led the prison break by overpowering a guard and then taking Hale and Chism.

When there the quartet left a trail of abandoned prison clothes and stolen cars.

Hale, of Glenwood, Ore., and Chism, of Amory, Miss., were serving terms for robbery.

**PASS VOTERS TURN BACK BOND ISSUE**

For the third time in as many years electors in Pass Christian and DeLisle denied permission for the issuance of improvement bonds by the municipal separate school district.

The latest defeat came in Tuesday's special election in which voters voted their opposition to a \$125,000 school bond issue.

Passage of the issue required a 60 per cent majority of those voting. In Pass Christian the issue was defeated when 321 voted, favoring the bonds while 238 voted against the measure.

DeLisle voters defeated the issue outright with 103 for and 174 against.

Mayor Francis Hursey of Pass Christian noted less than 50 per cent of the qualified electors in the city turned out for the voting. In DeLisle about 80 per cent of the electors voted. DeLisle is part of the Pass Christian separate school district.

Proceeds from the bond sale were intended for use in "erecting, remodeling and enlarging the school buildings and related facilities."

The school board of trustees earlier had passed a resolution asking the city's board of aldermen to set the election date.

Mayor Hursey today declined comment on the outcome of the election. "I was in favor of it (the bond issue) and I voted for it, that's all I can say," he stated.

**Mrs. John Griffin Wins Ladies Day Competition**

Mrs. John Griffin posted a low net of 8 to win top honors in the weekly ladies day competition Tuesday at Pass Christian Golf Club. Mrs. Powell Glass, Jr., and Mrs. Walter C. Russo tied for low putts at 15, the latter winning the prize on the toss.

Mrs. Griffin and Mrs. Russo also tied for the monthly ringer tournament with a net 64. Mrs. Russo won that prize. Mrs. Walter Ger, Jr., defeated Mrs. John Griffin 1 up to win the monthly match play tournament.

Qualifying was held for the December match play tournament, first round of which is to be played on or before Tuesday. Pairings are:

Mrs. Griffin vs. Mrs. Ben McMath; Mrs. Richard Hays vs. Mrs. Ed Perry; Mrs. John David vs. Mrs. Tom McAnley; Miss Julia Frye vs. Mrs. Donald Prentice; Mrs. Glass vs. Miss Maud Frye; Mrs. Wilbur Johnston vs. Mrs. Guy Bufkin; Miss Anne Liveredg vs. Mrs. Norman Renshaw; Mrs. John Ellis vs. Mrs. John Foster.

Others attending the luncheon included Mesdames C. C. McDonald, Jr., John McDonald, Otis Winnard, Herbert Wise, D. Hendrix, Jack Lang, Wm. Gaudet, Geo. Arceneaux and M. Merritt.

Mrs. John Eberhardt is in charge of luncheon arrangements next Tuesday.

**Forty Nine Freshmen Students Selected As U. Of Ole Miss. Scholars**

University, Miss.—Forty nine freshmen students have been selected as University Scholars at Ole Miss., as announced by Dr. Loris Raymond, director of the Scholar program.

To be eligible for the special honor, an Ole Miss student must be enrolled in the College of Liberal Arts and must be in the top ten percent of the freshman class at that school. Ranking is on the basis of entrance examinations.

"This is a program designed to stimulate the superior student," Raymond said.

Although each Scholar carries only the normal number of hours, in addition to regular class assignment he is given special projects and attends seminars designed to challenge his imagination.

New scholars are required to take a mathematics course during their first year. They attend special English classes and those taking history are in a special advanced section.

In addition, they join upperclass Scholars once a week in informal meetings with visiting lecturers, artists and distinguished visitors to the campus.

Following classes Class I: "O Holy Night" a totally religious arrangement; Class II: "Deck the Hall with Boughs of Holly" an elaborate decoration arrangement for a special Christmas party; Class III: "White Christmas", an all white arrangement; Class IV: "Bring a Torch", an arrangement with candles; Class V: "Jingle Bells", a cheerful, gay arrangement; Class VI: "God Rest You, Merry Gentlemen", a masculine arrangement; Class VII: "There's a Song in the Air", a delicate, feminine arrangement; and Class VIII, "Here Comes Santa Claus," child arrangement.

The classes for junior members are the same as for seniors.

Deadline for entries will be 3 p. m. December 10. Judging will be by popular vote of membership with penneis. There is no restriction on material or containers and accessories may be used.

Mrs. Felix Seeger and Mrs. R. J. Reinike co-chairman of arrangements, announced.

**PROFITABLE DAIRYING**

Some good rules to follow for making money dairying include:

Balance the number of cows with your feed supply. Shoot for higher profits per cow, per acre and per man. Make your goal 8,000 to 1200 pounds of milk per cow.

**KEEP RECORDS**

This is good business. Records will help you cull out loafers, select brood cows, replacement heifers and help you improve your feeding. Feed every cow according to her production.

Provide plenty of pasture. It is the cheapest feed. It saves labor and increases milk production. It also uses land that is not suited to growing other crops.

Manage your pastures for more money. Provide a succession of seasonal grazing—constant supply.

**WOOD AND PULP**

Reforestation plays an important part in the industrial development of Mississippi.

Within the memory of many of us much of South Mississippi was cut-over stumpland. Forests now occupy more of the state's area than all other land uses combined; 57 percent of the entire state is forested; 229 million seedlings have been planted in the past ten years. Farmers own 43 percent of these woodlands, wage earners and businessmen 32 percent, wood-using industries 15 percent and public agencies scarcely 10 percent.

Already Mississippi ranks first among all the states in hardwood pulpwood production.

The 133,000 owners of small private woodlands hold the key to Mississippi's forest future, as trees become a major crop in the economy of our people. Timber, once manufactured into lumber, cross-ties and light poles, is now processed into newsprint, kraft paper, cartons, wallboard, furniture, plastics and various other wood products in the state.

Electricity, with which we pioneered in Mississippi, is the energizing force that has made this transition possible. Electricity provides the light and power that produces payrolls, transforms wood into new wealth and promotes the prosperity of our people. Trees and electricity are vital to our growing economy.

Timber, once manufactured into lumber, cross-ties and light poles, is now processed into newsprint, kraft paper, cartons, wallboard, furniture, plastics and various other wood products in the state.

Electricity, with which we pioneered in Mississippi, is the energizing force that has made this transition possible. Electricity provides the light and power that produces payrolls, transforms wood into new wealth and promotes the prosperity of our people. Trees and electricity are vital to our growing economy.

### Miss. Traffic Deaths Below Last Year's Count

Mississippi traffic deaths are below last year's count. This report from Public Safety Commissioner Tom Scarbrough, coming in 1959's eleventh hour, may mean that highway fatalities will be reduced this year. However, the Highway Patrol head cautions Mississippians that the month of December brings additional driving hazards.

The January through November road toll reached 480 killed, 5 deaths behind last year's 485 victim count. This margin of decrease could be easily erased by a single multiple-fatality smashup, and Commissioner Scarbrough points out that this type collision is common during the Yuletide season.

To insure maximum motoring safety during December the Highway Patrol recommends that the following three cardinal rules of December driving be observed:

1. Do not drive while drinking intoxicating liquors
  2. Do not drive too fast for existing weather or road conditions.
  3. Do not follow too closely.
- These three safety violations are common in December traffic accidents. The Patrol states that an astounding number of drivers involved in December accidents during recent years had been drinking. Excessive speed is also a consistent December killer, while rear end collisions caused by following too closely in con-

The weekend was pretty rough for most any sports, but some fishermen and duck hunters were out.

We were told that speckles, were being caught up Jordan and by the Kiln, but weekend fishermen mostly threw a blank, didn't hear of any nice catches. Larry Larroux and Yours Truly had a blank, also.

Dick Merritt and Bill Johnson have been catching some nice specks lately.

Ducks were as scarce according to Joe Kern, August Rauxet, Raoul Teillard, Nicky Rauxet and Joe Church. There just weren't any.

Bill Witter was over for a couple of days and made a fishing trip.

Al Baudry of New Orleans was over Sunday but didn't have time to do any fishing. Come back soon Al.

Glad to see Bob Genin out at the golf course the other day. Keep up the good work, Bob.

Herb Wise, Joe Kern and A. C. Mitchell went after doves Saturday. Haven't heard what they got.

Bayou Portage and Bayou De Lisle have been (should say were) producing some nice speckles according to those who have gone that way. Wolf River is also a good fishing spot.

Dick Proctor says he has been doing good with his fishing trips. He is proud of his speed hull.

Henry Lang says he hasn't had time to do much fishing, but he does justice when it comes to eating 'em!

Sorry to hear of the death of our friend, Ray Stieffel, last week. Ray was an all-round sport.

Joe Kern will have lots of company from now on. Janel loves fishing and boating, also.

According to reports Pearl River is clear and some nice green trout and perch are being caught up that way.

### STATE'S ECONOMIC PICTURE BRIGHT

Our State's economy made significant progress during the first three quarters of 1959, with all major indications registering gains and reaching peak levels during the nine-month period. Bank deposits, the best single indicator, will probably run 16 to 18 per cent above last year. Sales of life insurance are almost certain to hit a new all-time peak, totalling at least 28 per cent above sales last year. The industrial phase of these nine months is especially
